# Company Overview

## KEY FACTS:

- **Membrana is a financial blockchain platform for customers from all over the world. Membrana platform intends to work with multiple financial markets: digital currencies, stocks, bonds, warranties, futures.**
- **Product is in public Beta stage with 3000 customers already using the platform**  
<https://beta.membrana.io>
- **RTM launch - Q3 2019**

# Product

- **Multiple business opportunities already available:** investing, trust management, referral system, trading and many others - everything is free to use on Membrana platform.
- **Safety of assets** - always a main priority of our company!
- **Anyone can use the product. No limits for minimum or maximum starting balance.**
- The platform can be used from PC or mobile phone, from any point of the world.

# What we offer

With Membrana technology you can:

- **Increase trading volume, liquidity and generate additional commissions for exchange**
- **Attract new customers with different events and competitions**
- **Provide exchange customers with unique service, which is not available on other exchanges**
- **Allows to safely connect additional services to exchange**

# Our solution

We plug-in Membrana technology to your exchange. The technology consist of:

- Connector
- Backend system
- Smart-Contract
- Oracle system
- Inmemory database

## How it works

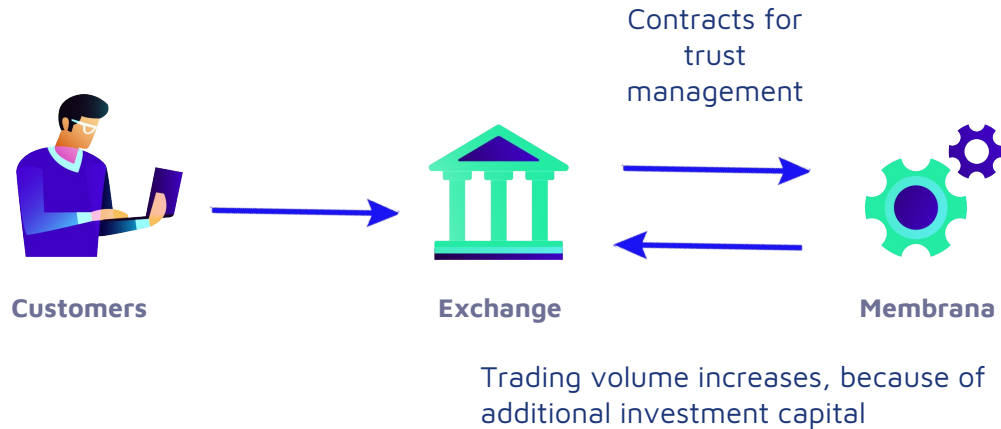

Exchange customers receives a opportunity to safely trust their assets through exchange interface to experienced traders or portfolio managers.

Asset are stored on investor's exchange account and trader receives a temporary access for trading. Trading is done with usage of Membrana API.

All deal parameters are deployed in the smart contract and executed automatically.

# Interaction pattern

# Customer acquisition

With Membrana technology you can launch several events to attract customers:

- **Global Traders Competition [\(read more\)](#)**

Users compete between each in a trading competitions to win part of a prize pool.

- **Margin trust management contracts [\(read more\)](#)**

Users sent a collateral to receive additional funds for trading.

# Result

By connecting Membrana technology you receive:

- **New service for customers**
- **Additional income from commissions**
- **Competitive advantage over other exchanges**
- **New possibilities for increasing provided service thought secure connector**
